

INSTRUCTIONS PHOTO ETCHED DETAILS FOR BORDER BS-001 TYPE: VIIC U-552, U-96, U-82 1/35

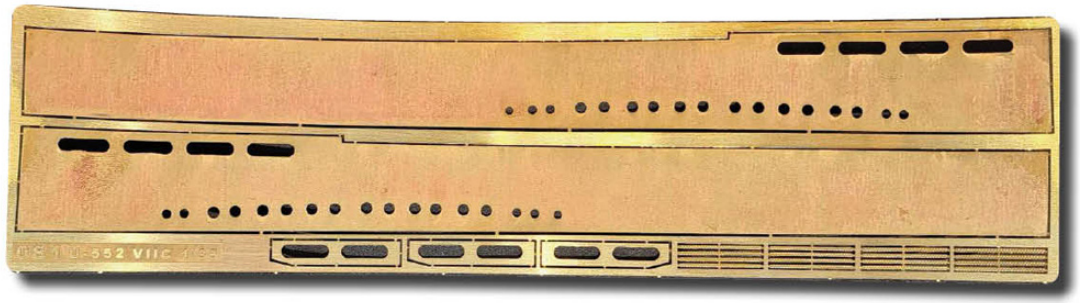

SKU-081-U-552 SKU-083-U-96 SKU-087-U-82

Very early on, the side hull collar was the first to be removed because it increased the submersible time. The Border kit submarine never existed in this design. The side collar of the submarines was also shaped differently and pointed upwards (not flush with the deck).

REPAIR COLLAR

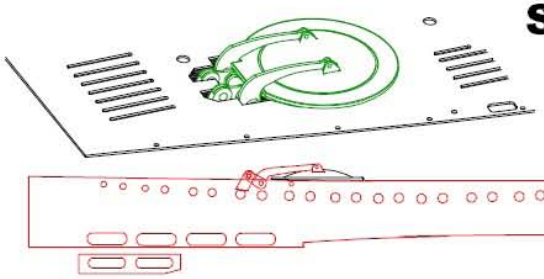

U-552

In this turret design, the side collars must be removed and replaced with a PE set, as the collars were removed from submarines very early on. They slowed down the dive speed.
